

FINANCE TRANSPARENCY FORUM

“

The Sustainability Summit opens its 7th year of activities. At the forefront in 2015: the Finance Transparency Forum, the newest initiative created among its working groups engaging policy makers and industry leaders driving modernization projects for societal development. Among the main priorities set for the Finance Transparency Forum's agenda, the key topics for this year's debate are strengthening regulations, addressing the analytical divide, facilitating financial inclusion, securing a cashless society.
